

Friction Jewelry's True Leaf Collection

# Real Leaves

made in L.A.

ALL dipped in 24k Gold , Sterling, Copper or Gunmetal  
created by nature, designed by **Friction Jewelry**

Each piece of handcrafted jewelry begins with a genuine leaf. First, we hand-paint the surface of the leaf with a copper- based paint that is electro-conductive. Once the natural surface is coated with this metallic finish we are able to dip the leaves into a vessel filled with 24kt gold or other specialized metal solutions such as sterling silver or Iridescent copper. Then, using a process known as Electroforming, an electric current is applied causing the gold to "stick" to the copper base layer creating

a unique handcrafted piece of art, each with a unique meaning...

*Four leaf Clover - Luck*

*Aspen - Inspires Creativity*

*Lacey Oak - Strength*

*Birch - Good fortune*

*Cottonwood - Love*

*Elm - Health & Relationships*

*Pine Cone - Optimism*

*Japanese Maple - Wisdom*

*Sugar Maple - Success*

*Full Moon Maple - Dreams Come True*
